Accident That Occurred During Safety Feature Demonstration Test Drive (Second Report)

HIROSHIMA, Japan—Mazda Motor Corporation previously announced that on November 10, 2013, in Fukaya City in Japan's Saitama prefecture, an accident occurred at a test drive event organized to demonstrate safety features using a Mazda CX-5. Mazda again expresses its heartfelt sympathy for both the customer and the sales company-employee who were injured in the accident. Furthermore, Mazda offers its sincere apologies for the trouble and concern caused to our customers and other related parties.

Since the accident, at the request of the police, Mazda has cooperated fully with the police investigation into the accident. The results of this investigation have confirmed that there was no defect or malfunction with the vehicle involved.
