Mazda and Sollers' Joint Venture Signs Special Investment Contract with Russia to Establish Engine Factory

Vladivostok, Russia—Mazda Motor Corporation and OJSC Sollers announced today that their joint venture production company, MAZDA SOLLERS Manufacturing Rus (MSMR), has signed a special investment contract with the Government of the Russian Federation regarding the establishment of an engine factory at its production facility in Vladivostok, in the Primorsky region of Russia's Far Eastern Federal District.

The engine factory to be established at MSMR will have a capacity of 50,000 units per year. Mass production is expected to begin in 2018. The Russian government has offered support measures for its establishment, valid until 2023. Details of the measures will be decided moving forward.

MSMR, which began operations in October 2012, currently assembles the Mazda CX-5 and Mazda6. It has produced over 100,000 units for sale throughout Russia.

Mazda and Sollers will continue advancing their collaboration, making the most of Mazda's vehicle manufacturing prowess and Sollers' infrastructure and team to contribute to the Russian automobile industry.
