

For release Nov. 1, 2018

## Organizational and Personnel Changes

Mazda Motor Corporation has announced the following organizational and personnel changes, effective Nov. 1, 2018.

### 1. Organizational Changes

Changes in the areas of vehicle and powertrain development

Aim

- Enhance model-based development (MBD), a critical part of testing in early development, by consolidating the resources and analytical work of the vehicle and powertrain development divisions and establishing a framework for closer coordination between the two.
- Through enhanced MBD, meet increasingly stringent regulations and further enhance product competitiveness by developing technologies with unprecedented levels of sophistication and complexity.

Details of the organizational changes

- Newly establish the MBD Innovation Department to combine development of CAE technologies for vehicle development and powertrain performance analysis.
