Support for those affected by the recent earthquake in Turkey and Syria

We are deeply saddened by the terrible loss of life following the recent earthquake in Turkey and Syria and extend our heartfelt condolences to the families of those who lost their lives as well as our sincerest sympathies to everyone affected by this major disaster.

Mazda Motor Corporation has decided to donate ¥10 million to help support the affected regions and survivors of the earthquake. The donation will be provided via the Japanese Red Cross Society.

Mazda operations in the neighboring countries to Turkey and Syria are also making financial contributions to registered charitable organizations to support the humanitarian efforts taking place in the affected areas.

It is our earnest hope that the affected areas of Turkey and Syria are soon able to begin the process of recovery.
